

ARE YOU WASTING TIME AND MONEY?

SAVE TIME AND MONEY! Don't spend hours searching the Net for new software and downloading the dogs. And don't spend a fortune on expensive programs when freeware or shareware applications can do the trick.

Handpicked Software for Mac OS X is your hands-on guide to the best new software. It's packed with more than 100 reviews of freeware, shareware, and commercial programs:

- The latest releases from major developers, like Apple, Adobe, Corel, Deneba, Extensis, FileMaker, MYOB, and many more
- Outstanding software you've probably never heard of, including Stone Studio, TIFFany, Toon Boom Studio, and Vue d'Esprit
- Covers all major categories

BONUS CD-ROM contains over 100 programs, including tryouts of popular commercial programs (like Adobe Illustrator, InDesign, and LiveMotion). Plus must-have applications, indispensable tools, and utilities to help you:

- Unleash your creativity (pages 34, 42, 51, 54, 56, and many more)
- Track your finances (pages 3, 6, 9)
- Personalize your Mac (pages 41, 134, 155, 156)
- Work faster (pages 140, 141, 157, 162, 164)
- Optimize your system (pages 143, 146, 148, 159, 163)
- Keep your files safe (pages 130, 131, 154)
- Get the most out of OS X (see page 176 for a complete list)

ROBERT ELLIS is a Mac fanatic and one-time president of the Santa Fe Macintosh User Group. He published a guide to the Internet, *Don't Sweat the Net*, in the early '90s.
